Dear Mr. Tucker,

We had a meeting of our Central Foreign Mission Board at the end of last week when I reported to them the result of the interview I had last month with yourself & Mr. Kemp. None of the members of the existing Board were on the Board in 1842 when the arrangement with your Society was made & they were all in ignorance of the contents of the Concordat which you kindly gave me.

In fact our Board is now on quite a different constitution from the one with which you made the arrangement as that was dissolved

when our Representative Church Council
was started & Foreign Mission work
is now merely a branch of the Council.

I am glad to say that it was
unanimously agreed that any restrictions
there ~~should~~ have been on the Society for the
Propagation of the Gospel in Foreign Parts
in Scotland should be put an end to &
that for the future the Society should be
at liberty to come to Scotland in the same
way that any other English Society
is allowed to do at the present time.
This I hope will be satisfactory to you
& I have no doubt that our Board & your
Society will be able to work cordially
together. Of course it is understood that
all former Agreements or Obligations are
at an end.

Some of the members of the

Board drew attention to the remarks made in the S. P. G. Digest and other publications with regard to the want of assistance from Scotland & I would venture to hope that when a new departure is being made such a reference may not again appear.

I am,
Yours faithfully,

W. F. Kemp Esq:

Leslie Witchcraft in Pondoland East. 43444

The following account of how the initiation of a witch doctor (woman) into the mysteries of her craft may be of interest as showing how strong still is the power of the devil in this parish - It is written by Mrs Kissing, Catechist in the Umzizi district. 71

The other day I went to hold a meeting at Patagile's Great Place, when I got there I found hundreds of Pondos - they had assembled for the purpose of witnessing the 'Coming out' of the chief's sister as a witch doctor - Let me try & explain the process from the beginning. When a person is troubled with Rheumatic pains in certain parts of her body she goes to a doctor (witch) & asks what is the matter. Very likely she is told that she has 'INKATAZO' (i.e. that she is troubled by Evil Spirits) - She then goes home, tells her husband or elder brother - he at once calls in a witch doctor who begins to dose her with medicines made of some very bitter herbs found on the river banks together with the bark of certain trees - these are pounded together & mixed with the blood of an ox killed for the purpose - The candidate undergoes a course of such medicines for 3 months, during which time she holds communication with none but her own family, & she is not allowed to cross a river - She spends most of the time in her own hut & the evil spirits speak to her in her dreams - There is a converted woman on this Station who was until lately a famous doctor & who declares

that while asleep small people used to appear to her, & sometimes the spirits of her ancestors spoke with her - she gives one instance of the spirits bringing her Grandmother to her who told her that the brother had stolen a beast the day before - on awaking next morning she accused her brother who thereupon confessed the theft, was taken before the Chief & punished -

Whilst these people are undergoing their treatment the least thing seems to startle them & when startled they make a great noise like mad people - the family at once get an ox hide (which is kept for the purpose) & beat it with sticks, at the same time singing a wild dirge - the would be doctor, in her frenzy, begins a terribly licentious dance, losing all control of herself - she dances on until she falls down quite exhausted -

At last, at the end of her three months, the day is fixed for her to 'come out' - witch doctors come together from all parts, all assemble at the hut where she is, & all dose themselves with bitter medicine - Then some 10 or 12 people take an ox hide - & begin beating it - all the doctors, headed by the new one who carries an assegai, rush out of the hut & go to different parts of the Kraal - The new doctor is dressed in white blankets (the others all have red ones), on her head is a wreath of evergreens - a terribly heathen dance then follows - on the

Conclusion of this the new doctor selects a new mat & when she has seated herself everyone present makes an offering to her - money, bracelets, baskets, mats, goats, sheep, whatever it may be - the Sacrificial beast is then killed & is eaten & much Kafir beer is consumed - the person is now a full fledged witch doctor - Even now, after six years of English rule in the country, she has tremendous power owing to the superstitious character of the people - She has given herself, as thousands of others before, entirely over to the devil - It is so strange to note how, when in God's mercy such people are converted, they behave almost in the same way as those possessed with the devil did in the days when our Lord was here on earth to bid the spirits 'Come out of her' -

Such is a slight sketch of the initiatory rites for the office of witchdoctor - There are hundreds of these people in this parish -

Dear Sir,

Know you any permanent Colonial Chaplain vacant, or likely to be vacant this year, where Catholic work is being carried on, and a priest is required in sympathy with the work - or do you know of any priest who, having private means, and desirous of an exchange would accept a small Country living like this parish, within 25 miles of London. I was for 10 years from 1879 to 1890 in charge of a popular parish in New Zealand, & Bishops Chaplain. On my return home for two years in charge of a Mission District in the East End of London, and in 1892 was appointed Rector of S. James, Cambridge - S. Africa. But as my health failed there I was obliged to resign and returned home in 1897. I accepted this poor Country living in order that I might regain my health & strength. Which is now fully restored, and I desire a larger sphere of work & should like to obtain a permanent European Chaplaincy and more especially as some part where there is work among seamen, and in a healthy place. I have been

accustomed to dealing with large populations - and
well organized parishes - with Zenana services. Class
work &c - And can produce satisfactory testimonials
respecting my past career - I feel that in this small
parish, where my health is thoroughly reinstated, I am
wasting both my time & experience. I shall be greatly
obliged if You can give me such information as I require.
and also some idea of the income of such Chaplaincies
Also could You give me any information relating
to Genoa - the English population &c and the kind
of work - I have received some communication
from the Bishop of Gibraltar in respect to the Church
which is vacant -

I am dear Sir

Yours Sincerely

My dear Mr Tucker,

The Report which goes with this for last year ending Dec 31. 1898. We make our returns up to that date each year, instead of earlier: and that for 1899 is not yet all in. The returns show a considerable increase in numbers, partly owing to more perfect returns in some cases, but largely to the steadily increased attention the people are directing to our efforts. This is very marked and will be more so I think: the undertow has done a great deal to wean the people from their old traditions of heathenism, as cattle have always been the foundation of their whole system, social, political & ecclesiastical, religious. And although they are rapidly collecting cattle again (I think 90 per cent died of the rinderpest), they will never be the what they were to them in times past. And there is no doubt in my mind that the war if brought to a satisfactory termination, will settle the minds of the Natives, & make them more content with British rule than they have been: for the stake of things they have been witnessing

My dear Mr Tucker,

The Report which goes with this is for the year ending Dec 31. 1898. We make our returns now to the end of the year, instead of March: and that for 1899 is not yet all in.

The returns shows a considerable increase in numbers, hardly enough unperfect returns in years past, but largely to the greatly increased attention the people are directing to our efforts. This is very marked and will be more so I think: the mission has done a great deal to wean the people from their old traditions of heathenism, as cattle have always been the foundation of their whole system, social, political & superstitious, religious. And although they are rapidly collecting cattle again (I think 90 per cent died of the rinder cattle), they will never be the what they were to them in times past. And there is no doubt in my mind that the war if brought to a satisfactory termination, will settle the minds of the Natives, and make them more content with British rule than they have been: for the state of things they have been witnessing

at the gold fields has made our people doubtful which was really the paramount power, or race in S. Africa, the Dutch or English. I have asked intelligent natives what they thought of the relations between the two at the Rand, and have had the answer, "he thinks the English are afraid"

One need I thought at first by the number of our Native Christians and communicants, the number of whom latter is more than 7500, is the need of more Priests, Native Priests to minister to them, to and give them the Sacraments, and teach the young. The number may not seem so very large, but it is large when we consider the way in which they are scattered; a parish of 30 miles by 50, will have 20 or 30 congregations each with its chapel, 5 or 10 miles apart, and one or at the most 2 Priests. Such is the type of Parishes in the Diocese, and the difficulty of ministering to 600 to a 1000 communicants, scattered in this manner is at once apparent.

We have now a Brotherhood existing at S Cuthberts, and it is called S. Cuthberts. Canon Callaway is the Superior, his brother, and Mr Ley, and a new comer who has charge of the Theological Students, Rev R.C Keatle, and a newly ordained Deacon, Mr Dobbs, are the members; five in number. Mr. Keatle or Father Alfred as he is called now, lives at Umteta, though a member of the new community. His work with the students seems very thorough; he tries to inculcate the first principles of the faith; and to instil the ideas of our Religion into the mans minds; rather than make them get off by rote so much of a text book. He makes them fully set forth the meaning of our Theological expressions in the Native Language: going a good deal on the lines of the late Bishop, Bishop Callaway. The men, the students, do not always understand his methods; their ideas of education are derived

from the Government aided schools, where 7 per cent are ~~crammed~~, without much use of the title Bishop, ~~under the day~~. Nowhere patience is the ~~best~~ ~~master~~ for all of us: and it is certainly ~~very~~ necessary in the slow building up of our Native ministry: but how necessary the ministry is none can tell but those who are working here. Our Native Priests still are only few in number. and there are 8 Deacons. One third of the whole number of our Clergy.

One other great want is that of adequate buildings in the Native Parishes, for the Church services. Every little congregation has its little building seating perhaps 50 to 200 people, but there is no building church capable of holding anything like the congregation of the Parish when it meets for a solemn service at a festival. Such a church has just been opened at St Mark the church built in memory of the late Archdeacon

Crossed lines should not matter as

Waters; and the Revised Celebration of the Holy Eucharist without any of the more elaborate Ritual usages, was most solemn; the people sang very fervently the hymns which fall between, Creed, Sanctus &c. including the Benedictus and Agnus Dei; and it was to my mind very beautiful. I read all in it save a (Kaffir) language, and unaccompanied.

Now this year has been a costly church year having cost more than £2000, though only a part has been built; the church I contemplate building, would require from £400 to £500 to be given back from external sources, & it would be erected in a central part of each of the Native locations. Some Butterworth, Idutywa & Kentani are large and numerous stations so that all great festivals, confirmations, the special gatherings of native Chieftains would find something like adequate accommodation. Is this Utopian? I shall indeed be glad to see it accomplished before I pass away.

Another significant fact has been between the applications

of Mr Devane and the leading members of his Society, have incorporated into the Church. I do not like what has occurred, although the application has gone (as it should do) straight to the Archbishop: and indeed we have but a few of Devane's following in our Diocese; the larger number is in the Grahamstown Diocese, and up to the beginning of the war, in the Transvaal. The movement is a significant one, as it part of that Christian Body which has hitherto been called the Community of Ethiopian Church: it broke off a short time back from the Wesleyan Body: and was in connection with the Methodist Episcopal Church of America, the Negro section of it. Mr Devane tells me that they found the orders of that Body unsatisfactory, and so they left it. The whole matter is sub judice, so I will say no more about it. It is I think a symptom of the desire among the Natives, for a secure foundation for Church, orders, and Sacraments."

I fear my letter has been very fragmentary I hope to be in England towards the latter part of the year, & to confer with you personally on some of these matters

Yours very Sincerely Bramley Bp of S[outh] Afr[ica]

My dear W. Dudley

I am getting somewhat alarmed at the turn of events in Cape Colony the last day or so.

When the Cape Times ventures to give dis-quietening news, & the League Congress

to clamour for Martial
Law throughout the
Colony it clearly shows
that rebellion
are increasing, & that
there may be civil
war pending.

Under the present
circumstances would
you mind my returning
as soon as possible?
If there should be a
fresh outbreak in the

Colony it is extremely important that I should be with my native Christians who are on the border of the Colony. If things get worse there is a probability of the Government forbidding any body to return to the Colony.

My wife & family are out there living quite alone on a Mission Station & my wife expecting

a confinement at the
end of June.

I thought if I
left on or about the
19th I should just get
back in time for it,
but I fear that the
movement in the Colony,
& my absence may
bring about a premature
birth. The poor mare
is 25 miles away
from a Doctor.

I would therefore
like you to let me
write back the Town
Office to send

THE VICARAGE,

me off at the first
opportunity, and
continue my work
for the Society until
I sail.

It is most
probable that I should
not embark at the
earliest before the
end of next week
which would leave
only a few days

to be provided for
by Mr. Kemp.

With you
please consult
with him as he may
have a man he
can send if I should
be suddenly called
upon to go.

Yours truly

I have just cause
to be alarmed from
what you have seen
reported in the
papers the last
two days, I should
feel obliged if
you would send
me a wire to-morrow

expressing your
approval, & will

communicate with

at once.

Dear Sir

The following scheme has occurred to me for the furtherance of God's
d, & as a Missionary I cannot forbear communicating it to you.
ve as yet neither heard nor, nor acquainted anyone with the above,
ant writing to you first & at once as Secretary of the S. P. G. & as one
has the Foreign Missionary work of the Church thoroughly at heart.
the scheme be found practical enough & possible to be brought
effect, not only its related Colonial parishes; but the whole of
Anglican Church in Great-Britain Colonies & Dependencies should
itake part in it.
briefly state the scheme & humbly beg you to give it your perusal
consideration.

Reasons for formulating the scheme.

Because it would be a worthy & lasting means whereby the
glican Church in the Colonies may show her gratitude to the S. P. G.
part helps: especially as this is the Bi-centenary of that venerable
iety.

[illegible]

That each year the accumulated funds be audited &
ifirmed by or by a fully Representative Committee.
That the first quarterly Magazine of each year should contain
a statement of receipts & expenditure
[illegible]

Because it would afford such members of the Anglican Church in the Colonies, an opportunity for showing interest & sympathy for Missionary work.

131

Because the existence of such an Association would undoubtedly excite all Colonial Clergy to awaken their congregations to their bounden duty as Christians in regard to Missionary work - A duty which God to say, a great many do not now recognize & whose maxim seems to be. "It is more blessed to receive than give"

Because the Anglican Church in the Colonies should support Missionary work - equally as much as the Church at home.

Because the collections donations would materially help to hasten the propagation of the Gospel in Foreign parts.

Because I believe all Bishops & Clergy of the Anglican Church in the Colonies would heartily welcome & cooperate in the scheme.

Object of Scheme.

To form an Association for the conversion of the Heathen & the extension of God's Kingdom throughout the world.

Name of Association

The Inter-Colonial

Juvenile and Adult Missionary Association

of the

Anglican Church in the Colonies.

Constitution.

Be in the hands of the S.P.G. Committee - that the Heads of the Association should be all chosen from the Bishops, Clergy & Laity of the Anglican Church in the Colonies of the Archbishop of Cape Town as President.

133

Rules of Membership.

Class I. Juniors (under 15)

1. That each member use daily the Association Prayer (to be short & printed on the card of membership.)
2. That each member contribute not less than 1d per month towards the objects of the Association.

Class II Adults.

1. That each member use a daily Missionary prayer (I would specially recommend the Prayers printed in small booklet & published at St Augustine's College, Canterbury.
2. That each member contribute at least 3d per month towards the objects of the Association.

Magazine

Cor. Fabulæ.

Dominus Arnulfus - Iste ille Arnulfus
Dominicus medicus [illegible] dicere sim. Et ille, qui
[illegible] et Gallia Cisalpina et Gallia
[illegible] Britannia

133

Fabulæ Arnulfianæ

I. Arnulfus (versio 1.)

1. Arnulfus cum Arnulfo de Arnulfo Arnulfi filio
de Arnulfo Arnulfi nepote et Arnulfo pronepote.)
2. Arnulfus Arnulfum conspicit per fenestram Arnulfi aedificii
et Arnulfum Arnulfo dicit.

II. Arnulfus et Arnulfus.

1. Arnulfus Arnulfo dicit. Arnulfus Arnulfum Arnulfi filium
Arnulfo ostendit et Arnulfum Arnulfo dicit. Arnulfus
Arnulfum Arnulfi filium Arnulfo ostendit et Arnulfo dicit.
Arnulfus Arnulfi filius Arnulfo Arnulfum ostendit.

Vocabula

That a special magazine be published quarterly, to be known as the "United Colonial Missionary Magazine" & that it contain Missionary intelligence from all parts of the world. I would further suggest & advise that it be supplied to each Justices & Parish Members gratis.

Distribution of Funds.

That a Treasurer & Secretary be appointed in England, who should receive all moneys & answer all correspondence relative to the Association.

That a Treasurer & Secretary be appointed by the Bishops of each Colonial diocese, who should receive contributions from the parishes of that diocese & forward the same to the Treasurer in England and receive & distribute the Magazine of the Association.

That each year the accumulated funds be audited & disposed of by a fully Representative Committee.

That the first quarterly Magazine of each year should contain a statement of receipts & expenditure

That of the accumulated sum

a. à 1/4 be devoted to the S.P.G. fund for the training of Missionaries

β. à 1/4 be devoted to the building & furnishing of Churches in Heathen centres

γ. à 1/4 be devoted to special applications from Clergy working in European centres

δ. à 1/4 be devoted to the working expenses of the Association, the surplus if any to be used at the discretion of the Committee.

I humbly submit to you the above scheme, which I feel sure may be lectured by men better qualified to formulate it than myself.

Should you feel any doubt as to the advisability of putting the above mentioned scheme to the test, may I suggest that you print the whole or part of this letter in the Church Times & Guardian & thus find out the feeling of the Church Abroad in the matter, or write to the Bishops of the Colonial Church &c. the same.

The formation of such an Association on such a scale as I suggest—

would be a big undertaking & would entail much labour & that some few difficulties & objections would have to be overcome.

I should not dare to suggest what I have, but I feel this letter can do no harm either to myself or you.

Now I feel that I have done my duty in bringing the subject to your notice, & will conclude praying that the Holy Spirit may guide you & that God may bless the scheme should it be of His Grace be founded

I am dear Sir.

Yours sincerely.

Sydney Jordan Watson.

"THE MARRIOTT BEQUEST."

Particular attention must be given to the following conditions attaching to the grants:—

GRANTS FOR BUILDING OR ENLARGING CHURCHES, SCHOOLS, COLLEGES. OR HOSPITALS.

I.—No grant for any Church or portion of a Church, or for any other building, will be paid until the Bishop or the Diocesan Secretary shall certify that, by the payment of the said grant, the Church or portion thereof, or the other buildings for which the grant may have been made, will be completed, and that no legal liability, mortgage, or debt, upon the site or building exists, and that the site and building have been duly secured as Church property for ever. Unless these conditions are fulfilled before January 31, 1900, *the grants will in every case be written off and be regarded as lapsed.*

No grant will be available for any Church the exclusive use of which is limited to either white or coloured people.

In the internal arrangement of Churches to which grants are made sufficient kneeling accommodation must be provided.

Also in the case of a grant for a new Church it is most desirable that the Chancel should be included in that part of the Church which is built first.

GRANTS FOR ENDOWMENTS OF COLLEGES, SCHOOLS, OR HOSPITALS.

II.—Where Endowment Grants are made the capital will in all cases remain in the Society's hands, and will revert to the Society, and be available for similar objects, in case the Hospital, College, or School thus benefited ceases to exist. These grants will commence with the year 1898, *and the first quarterly payment will be due on April* 1.

Special Bill Forms and Letters of Advice are supplied, and must in every case be used.

III.—By the Testator's Will no portion of any of the grants thus made may be applied to the purchase of land, "whether for the purpose of providing sites for buildings or otherwise."
